Experience

Flutter Developer | Tiki

03/2020 - 12/2022

- Tiki Flutter - Flutter integration, working with native modules, the first man initiates & integrates Flutter to TIKI native app as a module (auth, user profile, order management…)
  → Cross-platform is used for features that don't need extreme performance, cost saving for company, and diversifying choices for other developers when implementing a new feature.
- Tiki iOS native app - some features in payment flow
- Tiki Android native app - some features in payment flow
- Tiki React Native (add React Native module to native app) - some features in payment flow

React Native Developer | Pharmacity

12/2018 - 02/2020

- Pharmacity Audit (internal app) - audit products in store by scanning barcodes with Honeywell devices (handle a large amount of data, synchronized using CouchDB & PouchDB, processing barcode input...)
  → Replace the old method (scanning with a barcode scanner, connected to laptop, bulky, difficulty moving), increasing mobility and efficiency for employees
- Pharmacity Media (internal app) - runs on Android TV box to playing promotional videos on TV at Pharmacity chain stores (live video sync, can work without network connection)
  → Replace the old app (for a fee) in use, cost saving for company
- Pharmacity Employee (internal app) - serve internal activities of the company, to help staff track working time, view revenue, QA/QC, report...
- Pharmacity POS (internal desktop app made by React + Electron) - for staff at store, when out of stock, they can order online for delivery to customers from other warehouses

Android & React Native Developer | Beesight Soft

03/2017 - 11/2018

- Tacko (Android) - the app to buy and sell handle products when you travel
- FeedMe (Android) - the app to sell and buy food
- MatchMe (React Native) - the app to connect and join an activity with another person (DynamoDB, Lambda function, Map, Sendbird...)
- BitAds (React Native) - the app to post, view digital cash market (Apollo GraphQL...)
- MSS (React Native) - the app to control, handle the staff, the job in the company

Key Skills

Mobile
- Flutter + native module (4+ years' experience)
- React Native (3+ years' experience)
- Android (1+ year's experience)
- iOS (basic understanding)
- CI/CD (Fastlane, CircleCI, Firebase & Store distribution)

Backend (basic understanding)
- NodeJS (Auth, RESTful API, SocketIO)
- AWS (DynamoDB, Lambda function, API Gateway, Cloud Watch, Cloud Formation, Cognito, S3, Lightsail, AWS Amplify)
- Firebase (covers most of its services)

Frontend (basic understanding)
- React, Webpack, ElectronJS

Others
- Unity3D
- Database client (Realm, PouchDB, CouchDB)
- App center, OneSignal, GraphQL, Relay…

Soft Skills

- Product mindset, able to give ideas to optimize user experience and balance team performance
- English with good read/write, intermediate communication
- Willing to exchange, share and discuss technical and technological issues with enthusiasm
- Cheerful personality, sociable, easy to cooperate with everyone in team

Background

University of Information Technology (UIT) 2013 - 2018
Very good graduation
Top graduate (1st)

Awards

Full UIT Scholarship - 2014, 2015, 2016, 2017
Students of 5 merits UIT - 2013, 2014
My certificates
